

Inaugural PropTech and Blockchain discussion on land registration & recording of real property interests

Join us in Barcelona **17 and 18 January 2019** at RMIT Europe for the inaugural international comparative discussion on opportunities and challenges for PropTech and Blockchain technologies for land registration, recording real property and financial interests, and land use planning and development applications.

We welcome industry and academic attendance.

When: Thursday 17 January 2019 will showcase PropTech products and services & Friday 18 January 2019 industry and academic short papers.

Where: RMIT Europe, Media-TIC Building, Level 5, c/Roc Boronat 117, 08018, Barcelona, Spain.

Cost: Free

Presentations: Short 10 minute presentations are proposed. If you would like to present please email your intention to rebecca.leshinsky@rmit.edu.au by **15 October 2018**.

RSVP for attendance: Final date: **By 1 November 2018** (spaces are limited)

There are two academic outputs proposed from this seminar

1. Special issue (2020) on Blockchain/PropTech in the *Journal of Property, Planning and Environment Law* <http://www.emeraldgroupublishing.com/JPPEL.htm>
2. Edited book for practitioners and students which addresses legal and governance issues as they relate to PropTech/Blockchain technologies for land registration, and the recording of property and financial interests, as well as land use and development applications.

Hosts:

Dr Rebecca Leshinsky, RMIT University, Australia

Professor Kostas Lalenis, University of Thessaly, Greece

Associate Professor Balkiz Yapicioglu, Arkin University of Creative Arts and Design, Faculty of Design, Cyprus
